Stretch marks 6 sessions - Large Area	£850.00	£141.00

To achieve the best results, it is recommended that you have a course of 6 sessions over 6 months to start, this can then be followed up by a maintenance session twice a year

We offer discounts on these treatment bundles compared to booking single sessions of treatment

You can also take the opportunity to pair your Microneedling treatments with Serum or Skin Boosters

Serum is an additional cost of £10 per session and can be added via Fresha when you book. We offer a range of serums to suit different skin types and we will choose an appropriate one at your consultation

If you wish to have Skin Boosters, we recommend having Seventy Hyal and this can be booked in addition to your RF Microneedling treatment 2 weeks after each session and for this we recommend a course of 3 treatments to get the best results possible

We appreciate the cost of investment in our treatment bundles of 6 sessions. Due to this we are happy to offer you the opportunity to pay for each session when you attend at the cost per session shown in the price list

Please get in touch if you have any questions
